

As you are aware, the Teamsters is planning strike activity on California State University (CSU) campuses on Tuesday, Nov. 14. While supporting this freedom of expression, we will also fulfill our responsibility as a public university to maintain continuity of services while negotiations continue at the CSU system level.

SDSU's Business Operations and Facilities Services teams have activated plans that respect the rights and voices of our colleagues while maintaining safe and efficient operations for our campus community. The availability of facilities and services at SDSU Imperial Valley's Calexico and Brawley campuses – including campus security, information technology (IT) and Aztec Shops – is unchanged, but you are asked to be attentive to the following:

- For non-emergency maintenance support, submit a work order through the [Work Order System](#).
- For facility emergencies, contact Maribel Madero at extension 65515 or via email at maribel.madero@sdsu.edu.

You can find additional information and a FAQ section on the [website](#). SDSU remains committed to providing students, faculty, staff and visitors with a welcoming campus experience. Your understanding, cooperation and patience during this time are greatly appreciated.

Maribel Madero

Campus Administrator – SDSU Imperial Valley
